

Clutch Gear[®], MECHANICS Gloves

FUNCTIONAL BENEFITS:

Exo-Tekt water-repellant micro-suede palms are supple, flexible, strong and breathable

Light, breathable forchette inserts (between fingers) for better flexibility and comfort

Reinforced thumb crotch for better wear

Stretch-nylon backs feature Neoprene padding across knuckles to protect against knocks and abrasion

High functioning and form fitting

Ergonomic shaping for reduced hand fatigue and all-day comfort

Great dexterity and touch sensitivity

Velcro closures and wide elastic wrists keep gloves snugly in place

APPLICATIONS:

Mechanics

Assembly work

Construction

Material Handling

Parts Handling

Forklift drivers

Agriculture

Truck Drivers

MXBL

MXRED

MXBU

Clutch Gear[®] Mechanics Gloves

Superior's Clutch Gear[®] mechanics gloves bring together some of the most sophisticated materials available today, for a high-functioning, form-fitting glove like no other.

Exo-Tekt water-repellant micro-suede palms bring together the best of both worlds: they're water-repellant, yet breathable; durable, yet soft; and best of all, highly flexible. Synthetic leather offers more dexterity and better performance than natural leather, especially in wet conditions, taking far less time to dry than natural fibers and staying supple after drying. The results are gloves that are incredibly lightweight. A performance patch over the thumb crotch reinforces what is the highest-wear area of any glove for longer lifespan. Neoprene padded knuckles protect the back of the hand against knocks and scrapes. Create a custom fit with adjustable Velcro tabs at the back of the wrists. Great protection and styling, all without sacrificing dexterity and touch sensitivity. Choice of three colors.
